This topographic map illustrates the water management areas (mijnsteengebieden) within the municipality of Maasgouw. The areas are delineated by pink outlines, while the municipal boundaries are shown as black lines. The map features the Maas river flowing through the region, with several ponds and water bodies including Visvijver, Huyskensplas, and Jachthaven. Key locations such as Kessenich, Maasbracht, Stevensweert, and Berkelaar are labeled. The map also displays elevation contours, various roads, and railway lines. Specific landmarks like the Hompesche Molen and the Bilt are noted. The map is dated 14-12-2010 and has a scale of 1:15.000, with copyright information for Provincie Limburg and Dienst Kadaster Apeldoorn.
